SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

MAY 1939

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 8 cents each, or 25 cents a year (foreign, 60 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION

ANIMAL CASINGS FROM THE FRENCH PROTECTORATE OF MOROCCO

The permission granted in Service and Regulatory Announcements of February 1928 for the importation, through foreign certification, of animal casings from the French Protectorate of Morocco is hereby revoked. All animal casings which leave the French Protectorate of Morocco on and after July 1, 1939, shall be disinfected, as required by previous instructions, as a condition for admission into the United States.

RENDITION OF M. I. FORM 161—REVISED

The reporting of samples by the laboratories and keeping of laboratory records will be materially aided by not listing two or more of the different classes of samples on the same M. I. Form 161—Revised. For the purpose of keeping Bureau records, samples are classified as follows:

1. Meat and meat products.
2. Edible fats and oils.
3. Inedible greases.
4. Cereals, spices, and condiments.
5. Curing materials.
6. Gelatin.
7. Marking fluids.
8. Colors.
9. Denaturing materials.
10. Water.
11. Miscellaneous.

A separate M. I. Form 161—Revised should be used for each class of samples collected.

NEW MEAT-INSPECTION FORMS

M. I. Form 14 B.—This form is for the use of inspectors for reporting to the inspector in charge animal casings offered for importation.

M. I. Form 109 N.—This form is for use in reporting foreign meat and meat food products offered for importation for the personal use of the consignee.

M. I. Form 148 C.—This form is for use in reporting food other than meat and meat food products inspected for Government agencies.

These forms are available on requisition.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket No. 1014.—In re Dodge-Freedman Live Poultry Corporation, Concord, N. H. On December 1, 1937, the Secretary of Agriculture ordered that a hearing be held to allow applicant on opportunity to show cause why its application for a license to handle live poultry in commerce should not be denied. Accordingly, a hearing was held on December 8, and from the evidence adduced it was found that the applicant was financially unable to fulfill the obligations it would incur as a licensee. Therefore, on March 22, 1938, its application for a license was denied. On July 11 the Secretary issued an order granting the applicant further opportunity to present additional proof in support of its application for a license. Another hearing was held on February 13, 1939, at which time Harry Freedman, president and treasurer of the applicant corporation, testified that the applicant corporation is being dissolved and that the business, since January 1, 1939, has been operated by him in his capacity as an individual, and requested that no further consideration be given to the application of the Dodge-Freedman Live Poultry Corporation. Therefore, on May 13 the case was dismissed.

Docket No. 1128.—In re Sam Kramer, Manchester, N. H. The Secretary of Agriculture on January 25, 1939, issued an inquiry and notice of hearing, alleging that respondent's liabilities were in excess of his current assets and that he was financially unable to fulfill his obligations as a licensee under the Packers and Stockyards Act. A hearing was held on February 13 and from the evidence presented it appears that respondent is now financially able to meet the requirements of the act. Therefore, on May 13 the case was dismissed.

Docket No. 1201.—In re Paul J. Anderson, Marion, Ohio. On February 28, 1939, an order of inquiry was issued, alleging that the respondent since September 5, 1938, had operated at the Marion Livestock Sales Co. without having on file a bond as required by the act, well knowing that vendors of livestock at the stockyards have relied and do rely upon the protection afforded by a bond or other satisfactory form of indemnity, and had failed to notify vendors of livestock that he had not furnished a bond or other suitable form of indemnity and thereby induced vendors to sell livestock to him. On April 18, 1939, the respondent accepted service of the inquiry and notice, admitted the truth of the matters and things therein alleged, and waived a hearing thereon. On May 23, 1939, the Acting Secretary of Agriculture found that the respondent had violated the Packers and Stockyards Act as alleged and ordered him to cease and desist from the unfair and deceptive practice and device of engaging in business as a dealer at a stockyard without executing and maintaining a bond or other satisfactory form of indemnity to cover his financial obligations as such dealer, and he was suspended from registration as a dealer for 6 months, with leave, however, to apply for revocation of this suspension order upon satisfactory proof to the Secretary that he has furnished a bond or other satisfactory form of indemnity.

Stockyard Posted

The Vernon National Market and Feed Yard, Vernon, Calif., was posted on May 16, 1939, as coming within the jurisdiction of the Secretary of Agriculture under the Packers and Stockyards Act.

Poultry License Order

Hearings have been held to allow applicants for licenses to buy, sell, and handle live poultry in commerce an opportunity to show cause why their applications, made under title V of the Packers and Stockyards Act, should not be denied. During the month of May an order was issued granting a license to the following:
Docket No. 1192.—In re Belleville Live Poultry Market, Inc., Belleville, N. J.

PERMITTED ARSENICAL CATTLE DIP**Manufacturer**

The Bureau has granted permission for the use of ORTHO Cattle Dip, manufactured by the California Spray-Chemical Corporation, Richmond, Calif., in the official dipping of cattle for ticks. The dilution for dipping cattle for interstate movement is 1 gallon of dip to not more than 127 gallons of water. This will yield a solution containing not less than 0.22 percent actual arsenious oxide.

PERSONNEL RELATIONS POLICY AND PROCEDURE

[Amending Memorandum No. 753, dated May 4, 1938]

The attention of all employees of the Bureau is called to the Secretary's memorandum No. 822, dated May 15, 1939, amending Secretary's memorandum No. 753, dated May 4, 1938, which outlines the personnel relations policy and procedure for the Department of Agriculture. Copies of memorandum No. 822 have been sent to all heads of offices, with instructions to make distribution to each employee. For the further information and convenient reference of Bureau employees, the full text of the amendment is printed, as follows:

MEMORANDUM NO. 822

Memorandum No. 753, issued on May 4, 1938, relative to personnel relations policy and procedure, is hereby amended as follows:

In a case where an employee is dissatisfied with his efficiency rating, he should appeal in writing to the board of review of the bureau or office to which he is assigned within 15 days after receiving notice of his rating. The board of review will investigate the case as necessary and shall determine whether the rating shall be sustained or changed. In notifying the employee of its decision, the board of review in all cases shall notify the employee at the same time that if he is dissatisfied with the decision of the board of review, he may appeal pursuant to the provisions of memorandum No. 753, issued May 4, 1938, providing that he appeals within 20 days after notice to him of the decision of the board of review. In availing himself of this right of appeal, the employee will within that period notify the chief of the bureau or office in writing that the employee desires to appeal pursuant to memorandum No. 753 and shall indicate whom he (the employee) has arranged to represent him as a member of the bureau or office appeal board.

If an employee is absent on leave or official business at the time the notice of his efficiency rating—or the notice of the decision of the board of review in the case of an appeal—is sent to his office, the time limits of 15 and 20 days, respectively, shall apply beginning upon the date of his return to the office.

(Signed) H. A. WALLACE, *Secretary*.

REQUESTS FOR MOTION PICTURES SHOULD SPECIFY SIZE

The motion pictures of the United States Department of Agriculture are prepared in two widths, 35 millimeters and 16 millimeters. Bureau employees and other persons who wish to borrow films should specify which width is desired.

This is very important in making reservations and, especially, in filling orders on short notice.

One- and two-reel shipments of 16-millimeter films are mailed; shipments of three or more reels and all 35-millimeter films are shipped by express. This should be borne in mind, noting both the post office and the express station on application,

To economize in both time and shipping costs, the Department has arranged for 15 regional distribution centers in various parts of the country, as follows:

- Extension division, University of Arizona, Tucson, Ariz.
- Department of visual instruction, University of California, Berkeley, Calif.
- Los Angeles office: 700 Hillstreet Building.
- Bureau of visual instruction, University of Colorado, Boulder, Colo.
- Visual instruction service, Iowa State College, Ames, Iowa.
- Bureau of visual instruction, university extension, University of Kansas, Lawrence, Kans.
- Department of visual aids, University of Kentucky, Lexington, Ky.
- Extension service, University of Michigan, Ann Arbor, Mich.
- New Jersey State Museum, State House Annex, Trenton, N. J.
- Bureau of visual instruction, University of North Carolina, Chapel Hill, N. C.
- Department of visual instruction, Oregon Agricultural College, Corvallis, Oreg.
- Extension division, University of South Carolina, Columbia, S. C.
- Extension division, University of South Dakota, Vermillion, S. Dak.
- Visual instruction bureau, University of Texas, Austin, Tex.
- Extension service, State College of Washington, Pullman, Wash.
- Bureau of visual instruction, University of Wisconsin, Madison, Wis.

Applications for motion pictures may be sent to the nearest address in the foregoing list, or to the Bureau's Washington office where the necessary arrangements will be made with the Extension Service.
